The majority of Mcleods practice is acting for local governments and regional councils. The balance of the practice is associated with the activities of local, State and Commonwealth Government agencies.

As WA s pre-eminent local government law firm, we represent:

- all of the metropolitan local governments
- a large majority of non-metropolitan local governments
- many regional local governments
- Local Government Managers Australia

Our other public sector clients over the years have included a range of State Government departments, universities, statutory agencies and parliamentary committees.

As part of our commitment and contribution to local government in this State, we are delighted to be the Foundation Sponsor of LGMA.
